THE PROCUREMENT PROCESS

The following is a general description of the process by which a firm will be selected to provide services.

1. Request for Proposals (RFP) is posted on the internet via the State's Interactive Purchasing System.
2. A deadline for written questions is set for **Wednesday, October 28, 2009**. (See cover sheet of this RFP for details.)
3. Proposals in one (1) original and eight (8) copies will be received from each offeror in two (2) separate sealed packages - the Technical Proposal and the Cost Proposal. Each original shall be signed and dated by an official authorized to bind the firm. Unsigned proposals will not be considered. **NOTE:** No technical information shall be contained in the cost proposal. No cost information shall be contained in the technical proposal. If any cost information is included in the technical proposal and/or if any technical information is included in the cost proposal, the offeror's entire proposal shall be rejected.
3. All proposals must be received by the issuing agency not later than the date and time specified on the cover sheet of this RFP.
4. At that date and time the package containing the proposals from each responding firm will be publicly opened and the name of each offeror announced publicly. A notation will also be made whether a separate sealed cost proposal has been received. Cost proposals will be placed in safekeeping until opened at a later date.
5. Technical proposals will be evaluated first.
6. Upon completion of the technical evaluation, the cost proposals of those firms whose technical proposals have been deemed acceptable will be publicly opened. The total cost offered by each firm will be tabulated and become a matter of public record. Interested parties are cautioned that these costs and their components are subject to further evaluation for completeness and correctness and therefore may not be an exact indicator of an offeror's pricing position.
7. At their option, the evaluators may request oral presentations or discussion with any or all offerors for the purpose of clarification or to amplify the materials presented in any part of the proposal. However, offerors are cautioned that the evaluators are not required to request clarification; therefore, all proposals should be complete and reflect the most favorable terms available from the offeror.
8. Proposals will be evaluated according to:
 - A. Completeness, content, and depth of experience with similar social marketing projects in North Carolina.
 - B. A demonstrated grasp of HWTFCs goals and objectives and the ability to provide the comprehensive services necessary to meet those objectives.
 - C. Strength of account management capability.
 - D. A clear capacity to communicate with minority audiences.
 - E. Experience working in a state government environment.
 - F. Costs, with a particular emphasis on efficiency.

Each offeror shall demonstrate in its proposal that the Offeror, its management and employees are experienced and competent and that it has the background and training to perform the services required by this RFP. Award of a contract to one offeror does not mean that the other proposals lacked merit, but that, all factors considered, the selected proposal was deemed most advantageous to the State.

Work previously performed by the offeror that is related to the requirements of this RFP, including especially any social marketing campaigns conducted in North Carolina may be considered in the evaluation. The offeror should present the **best** example that demonstrates a capability to develop, implement and manage a social marketing campaign that addresses specific public health issues. The offeror should identify any personnel responsible for the past campaign, their role in that campaign, and their proposed role in supporting HWTFC. Offerors should submit materials from **one (1) such campaign that has been fully developed and initiated**. The submitted materials should demonstrate the following:

- A. Budget Maximization – The offeror should provide examples of how they maximized the budget they were working with and how it was accomplished.
- B. Advertising Effectiveness – The offeror should document the campaign's effectiveness and describe how the effectiveness was measured.
- C. Creative Ability – The campaign should demonstrate the offeror's creative capabilities.
- D. Samples – The offeror is strongly encouraged to submit samples of campaign materials. Any such samples shall be at the offeror's expense by the offeror's organization. **Any samples provided may remain confidential at the option of the offeror. Samples should be clearly marked or otherwise indicated as CONFIDENTIAL. Only members of the review panels will have access to this information.**

In addition to any other evaluation criteria identified in the State agency's solicitation document, the agency shall, for purposes of evaluating proposed or actual contract performance outside of the United States, consider the following factors to ensure that any award will be in the best interest of the State:

- Total cost to the State
- Level of quality provided by the vendor
- Process capability across multiple jurisdictions
- Protection of the State's information and intellectual property
- Availability of pertinent skills
- Ability to understand the State's business requirements and internal operational culture
- Risk factors such as the security of the State's information technology
- Relations with citizens and employees
- Contract enforcement jurisdictional issues

9. Offerors are cautioned that this is a request for offers, not a request to contract, and the State reserves the unqualified right to reject any and all offers when such rejection is deemed to be in the best interest of the State.

1.0 INTRODUCTION

The North Carolina Health and Wellness Trust Fund Commission (HWTFC) is seeking the professional services of a full-service marketing and advertising Contractor to work as a collaborative partner in the continued development, implementation, management and evaluation of a statewide social marketing program to reduce youth tobacco use in North Carolina. In addition, the contractor will, from time to time, be tasked with supporting HWTFC's general need for social marketing and earned media/communications services, events coordination / promotion and production of collateral materials. Current initiatives are described on the HWTFC Web site, www.healthwellnc.com.

1.1 Contract Period

The term of this contract will be from the **date of award through June 30, 2012**. The initial term will be from the date of award through June 30, 2010 with two (2) one-year renewal options. Contractor performance will be reviewed annually by the Contract Administrator prior to the execution of the designated annual renewal options. If the Contractor's performance is deemed unsatisfactory, subsequent renewal options will not be executed.

1.2 Contract Amount

Maximum funding available for execution of this contract will be \$4.5 million annually, the majority of which will be passed through to North Carolina media outlets for placement of advertising connected with the Teen Tobacco Use Prevention & Cessation (TTUPC) initiative. The annual amount of the contract will vary from year to year depending upon the availability of funds for social marketing as authorized by NC Health and Wellness Trust Fund Commissioners and receipts from the Master Settlement Agreement. Additionally, the amount may be adjusted during the contract year depending upon the availability of funds from federal or private sources as well as evolving priorities established by the Commissioners.

1.3 Contract Administrator

HWTFC shall designate one person as the Contract Administrator for this contract after award. This person will be responsible for the following duties:

- A. The Contract Administrator will approve the contract work schedule. Any deliverables generated as a result of this contract will be submitted to the Contract Administrator for approval.
- B. Determination as to whether the Contractor is satisfactorily performing the services specified in the contract shall be at the discretion of the Contract Administrator. In the event performance is unsatisfactory, the Contract Administrator shall be responsible for initiating notifications to the Contractor as outlined in the contract. Any desired change in the contract must be approved first by the Contract Administrator and by the NC Department of Administration, Division of Purchase and Contract, if required under State purchasing policies.

2.0 BACKGROUND

HWTFC was established by the North Carolina General Assembly to develop a comprehensive plan to finance programs and initiatives to improve the health and wellness of the people of North Carolina. The Commissioners have placed a priority on preventive health initiatives including teen tobacco use prevention and cessation; young adult tobacco use prevention and cessation; tobacco use cessation among vulnerable populations (e.g., pregnant women, mental health consumers); overweight/obesity prevention and reduction; eliminating health disparities; and dental access and medication management and prescription assistance services.

The Centers for Disease Control and Prevention cites effective use of communications media as a key component of preventive health programs; especially those targeting children. Beginning in April 2003, HWTFC has conducted an evolving paid media campaign as part of its Teen Tobacco Use Prevention and Cessation Initiative, entitled *Tobacco.Reality.Unfiltered. (TRU)*.

All of HWTF's contracts with commercial vendors are obtained through RFPs issued by the NC Division of Purchase and Contract. In October 2002, HWTF entered into a \$1.2 million contract for advertising services specifically related to the *TRU* media campaign. The initial contract period was for one (1) year, with two (2) one-year renewal options. HWTF did not exercise the renewal clause at the end of the first year of the contract and instead issued an RFP for a one (1) year period with a one (1) year renewal option for advertising services specifically limited to the *TRU* campaign.

An agency was selected in November 2003 and was awarded a contract totaling \$1.5 million over one (1) year. This one (1) year contract was subsequently extended for two (2) months through December 31, 2004 and was increased to \$2.6 million in order to expend additional funds allocated by a vote of the Commission in April 2004. This contract expired on December 31, 2005. At the semi-annual HWTF meeting conducted in December 2005, the Commissioners authorized increased funding for a follow-on contract. This decision was based upon a recommendation from HWTF's Outcomes Evaluator, the UNC School of Family Medicine's Tobacco Prevention Evaluation Program (UNC-TPEP), which in 2004 conducted rigorous pre and post campaign survey research that measured a "significant" effect on NC youth. Reports on this and other related research from UNC-TPEP can be accessed on HWTF's Web site (www.healthwellnc.com).

In February 2006, HWTF issued a media RFP for the continuing provision of advertising and social marketing services related to the Teen Tobacco Use Prevention Initiative, including the *TRU* campaign. An agency was selected, and in September 2006 was awarded a \$5 million contract. The initial contract period was for one (1) year, with two (2) one-year renewal options. This one (1) year contract was subsequently renewed at the end of the first and second years of the contract periods, with an additional \$5 million in each year, totaling \$15 million over the three (3) one-year contract periods. A separate RFP was issued at the same time for promoting the Quitline to youth and young adults and to promote cessation generally among youth. An agency was selected, and in September 2006 was awarded a \$1.5 million contract. The initial contract period was for one (1) year, with two (2) one-year renewal options. This one (1) year contract was subsequently renewed at the end of the first and second years of the contract periods, with an additional \$1.5 million in each year, totaling \$4.5 million over the three (3) one-year contract periods.

In this next phase, HWTF is combining both prevention and cessation services under this single RFP because it will be more efficient for the same agency to manage both contracts and avoid an overlap in services.

3.0 SCOPE OF WORK

HWTF is seeking the professional services of a full service social marketing and public relations contractor to work as a collaborative partner in the continued coordination, creation and execution of the *Tobacco.Reality.Unfiltered (TRU)* campaign that was launched in April 2003.

Effective social marketing is an integral component of preventive health. The selected Contractor therefore will be expected to rapidly grasp HWTF's internal work methods as well as its substantive, public interest goals and to consistently provide a high level of quality account service regardless of imposed deadlines.

This Contractor will also be required to work closely with multiple organizations that comprise HWTF's Teen Tobacco Use Prevention and Cessation (TTUPC) initiative including, but not limited to: HWTF grantees; technical assistance providers and outcomes evaluators; corporate partners; health-related non-profit organizations; and media vendors.

Under direction from HWTF and in cooperation with expert advisors retained by HWTF, the selected Contractor shall be expected to complete the Scope of Work described below:

- A. Develop, implement, manage, and evaluate a strategic social marketing plan that achieves the following goals at a minimum:
 1. Research and develop creative concepts using already market-tested media messages from the CDC Media Campaign Resource Center as well as feedback from the outcomes analysis currently being conducted by the UNC School of Family Medicine on the *TRU* campaign. HWTF's existing inventory of *TRU* ads can be viewed on the *TRU* Stories Web site (www.healthwellnc.com). These ads have been tested and will continue to be used so long as research determines that they remain effective. New ads will be developed in the testimonial format focusing on serious health consequences of tobacco use as necessary to support the expanded campaign or in other formats supported by continued research on the best methods to communicate effectively with teens. HWTF's goal is to reach 80% of the state's teen audience at least three times each month with tobacco use prevention advertising.
 2. Test any new messages with target audiences to ensure their effectiveness and cooperate closely with HWTF's technical support contractors who possess expertise in this area. Special emphasis must be placed on communicating with North Carolina's minority youth.
 3. Develop a media campaign strategy that includes timing, placement and method of message delivery, taking into account the timing of messages delivered from national and other tobacco use prevention and cessation campaigns, such as the American Legacy Foundation's TRUTH ads.
 4. Create, produce and execute youth prevention social marketing campaigns including an earned media component that supports and deepens the impact of the paid mass media campaigns. In addition, the vendor will provide adequate advance information and regional briefings to local tobacco control coalitions prior to each campaign release. Such local earned media activities shall be conducted in coordination with HWTF's technical support contractors and grantees. Final approval of all aspects of the social marketing campaigns, including paid and earned media campaigns, and all collateral materials, will remain with the HWTF.

5. Negotiate rates and place media with selected outlets targeting teens. The vendor will be expected to attract the participation of local media outlets, including commitments to provide donated placements that extend the reach of paid media placed at each outlet. Data on when and where both paid and donated advertising was placed must be made available to the Commission and the evaluation contractor.
 6. Provide direct support to HWTFC grantees in the areas of event promotion, development of counter-marketing messages for local use, and generation of local earned media that will create a public sense of pride in, and ownership of, community-based programs funded by HWTFC. Direct support may include capturing photographic images, video and/or print documentation of local, regional and state level *TRU* events and programs conducted by selected grantees, and incorporating them into HWTFC's social marketing efforts. Direct support to grantees will be required an average of 8-10 times per month.
 7. Identify and incorporate partnership and sponsorship opportunities in support of individual grantees and overall initiatives.
 8. Incorporate existing collateral materials for use by HWTFC grantees wherever possible; design and produce new collateral materials where necessary. Existing collateral materials related to the TTUPC initiative can be viewed at www.trutoolkit.com.
 9. Work closely with all of HWTFC's expert advisors, technical assistance providers, outcomes evaluators, and other contractors, all of whom make important substantive contributions to the design and execution of HWTFC's TTUPC initiative.
- B. Develop, implement, manage, and evaluate a strategic social marketing plan for Quitline NC (1-800-QUIT-NOW) that achieves the following goals at a minimum:
1. Create, produce and execute a complete social marketing campaign promoting cessation of tobacco use, targeting 18-24 year old tobacco users, and including those individuals on and around NC college and community college campuses. This should include an earned media component that supports and deepens the impact of the paid mass media campaign. Final approval of all aspects of the mass media and earned campaign will remain with the HWTFC.
 2. HWTFC's tobacco use network is statewide and includes numerous grantees, contractors and collaborating organizations. The vendor will provide adequate advance information and regional briefings to local tobacco control coalitions prior to each campaign release. Local earned media activities will be coordinated with HWTFC's technical support contractors and affected grantees.
 3. Develop creative concepts using results of formative market research conducted in 2005 and 2006 by the School of Public Health at the University of North Carolina at Chapel Hill, which recommends message and media strategies for a Quitline promotional campaign. The recommendations can be found in the document *Market Research on Teenagers and Young Adults for Promoting a Tobacco Cessation Quitline*; this full report and a PowerPoint presentation containing its summary of findings can be downloaded at www.healthwellnc.com.
 4. Qualitatively test new creative executions with target audiences to ensure their effectiveness and cooperate closely with HWTFC's staff and technical support contractors who possess expertise in this area. Testing should be conducted in two phases: the first to test concepts and the second to test creative executions of the best concepts.
 5. Develop an innovative and efficient media campaign strategy targeting 18-24 year olds that includes placement and creative methods of message delivery; timing of messages delivered from national and other tobacco use prevention and cessation campaigns should be taken into account.
 6. Negotiate discounted rates and place media with selected outlets targeting 18-24 year olds in North Carolina. The vendor will be expected to attract the participation of local media outlets, including commitments to provide donated placements that extend the reach of paid media placed at each outlet. Data on when and where both paid and donated advertising were placed must be made available to the Commission and the evaluation contractor.
 7. Provide direct support to grantees involved in HWTFC's Tobacco-Free Colleges initiative in the areas of event promotion, development of messages for local use, and generation of local earned media that will create a public sense of pride in, and ownership of, community-based programs funded by HWTFC. Direct support may include capturing photographic images, video and/or print documentation of local, regional and state level Quitline events and programs conducted by selected grantees, and incorporating them into HWTFC's marketing efforts.
 8. Identify and incorporate appropriate partnership and sponsorship opportunities in support of individual grantees and overall initiatives. HWTFC has a particular interest in effective outreach to family physicians and other health care professionals with access to college-age youth, in an effort to encourage their participation in Quitline promotion.
 9. Incorporate existing collateral materials for use by HWTFC grantees wherever possible; design and produce new collateral materials where necessary.
 10. Work closely with all of HWTFC's expert advisors, researchers, technical assistance providers, outcomes evaluators, media and other vendors all of whom make important substantive contributions to the design and execution of HWTFC's Quitline initiative.

- C. Support HWTFC's general need for earned media and communications services, events coordination and production of collateral materials, as directed.
- D. During the contract period, the Contractor must receive prior written approval of individual components of all media campaigns from the Contract Administrator, detailing the purpose of the component, its relationship to the overall media campaign and a cost estimate for the component. Once approved by the Contract Administrator, each component will be assigned a unique project number that will be referenced on all communication between HWTFC and the Contractor including invoices submitted to HWTFC. Invoices must include detailed supporting documentation for all charges.
- E. Comply with the following directive from the North Carolina Purchasing Manual: every agency of this State publishing a public document, other than one published for the principal purpose of sale to the public, shall include the following statement adjacent to the identification of the agency responsible for the publication.

"(Number of copies) copies of this public document were printed at a cost of \$_____, or \$_____ per copy."

The term "cost" shall include printing costs in the form of labor and materials, and other identifiable design, typesetting, and binding costs.
